

BRENDAN ROACHE

**Deputy Director
Office of Emergency Management
Office of Land and Emergency Management (OLEM)**

Brendan is currently the Deputy Director of the Office of Emergency Management. He joined EPA in 2005, after working for BearingPoint Inc., and has served in several different Offices across the Agency. He began his EPA career in OLEM's Federal Facilities Restoration and Reuse Office (FFRRO) managing budget, metrics, performance management and strategic planning.

Immediately prior to joining OEM, Brendan served as the Senior Budget Officer (SBO) for the Office of the Chief Financial Officer (OCFO) where his responsibilities included development of EPA's annual budget requests, formulation and execution, operating plans, strategic planning, management integrity, human resource management and workforce development. Brendan joined OEM in February 2017 as the Director of the Resource Management Division (RMD) and then assumed the role of OEM's Acting Deputy Director in June 2020.

Brendan holds a Bachelor of Arts degree in Economics from the Pennsylvania State University, and a Master of Science degree in Environmental Science and Policy from the Johns Hopkins University.
